Silo Marketplace

Your first stop for building and enhancing your Silo environment

Digital investigators need access to specialized tools and extensions to enhance their research capabilities. Finding trusted, compatible solutions that work seamlessly within secure investigation platforms has historically required extensive vetting, testing, and integration work. Organizations struggle to discover, evaluate, and deploy the right combination of tools while maintaining security and tradecraft standards.

Silo Marketplace is a curated in-app platform accessible directly within Silo Workspace, offering both Authentic8-created solutions and approved third-party integrations. It provides investigators with a centralized hub to discover, evaluate, and deploy browser extensions, web applications, and native applications that enhance investigation capabilities while maintaining Silo's security and anonymity benefits.

Platform Details:

- Accessible only within Silo Workspace (in-app experience)
- Policy-controlled at organization level
- Activity captured within standard Silo logs (no separate marketplace log type)

What's Included

- **Authentic8-created solutions** — Free browser extensions including Silo Citation, Silo Fang, Silo Referrer, Silo Screen Recorder, Note Sidebar, OCR Image Reader, Print Edit WE, and Social Search
- **Trusted partner web applications** — Premium solutions from Fivecast, Seerist, Overwatch Data, Samdesk, Wirescreen, ShadowDragon, DarkOwl, and more

Search/find solution/API integrations

- **API integrations** — Native application connections
- **Curated catalog** — All solutions reviewed and approved by Authentic8 for compatibility and relevance
- **Organized by type** — Browse Extensions, Web Applications, or Native Applications
- **Tag-based discovery** — Filter by use case including OSINT, Threat Intelligence, Dark Web, SOCMINT, Data Leaks, and more
- **Search and filter** — Quickly find solutions matching your investigation needs

Silo Workspace is the digital investigation platform that protects, masks, and accelerates direct engagement at the source. With isolated multi-app workspaces, a global managed attribution network, integrated capture and analysis tooling, and enterprise-grade controls, Silo is your unified workspace to enter the threat environment.

How It Works

Discovery

Access Silo Marketplace from within Silo Workspace. Browse by type (Extensions, Web Applications, Native Applications), filter by category tags (OSINT, Threat Intelligence, Dark Web, SOCMINT, etc.), search for specific solutions, or explore featured offerings.

Evaluation

Review solution descriptions, features, pricing, security details, and compatibility information. All solutions are approved by Authentic8 for compatibility and relevance to digital investigation use cases.

Submission (Partners)

Organizations and partners can submit solutions via standardized onboarding form. Authentic8 reviews all submissions, produces partner page materials, and returns marketplace URL for partner promotion.
